Alexandria, VA 22313-1450  
[www.uspto.gov](http://www.uspto.gov)

Date Mailed : January 5, 2009

Patent No. : 7,210,270 B1  
Patent Issued : May 1, 2007  
Docket No. : STE01 P-1069  
Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above-identified patent under the provisions of Rule(s) 1.322 .

The alleged error(s) Applicants have failed to properly complete a form PTO-1050 identifying the corrections to be made, by Col. & line number of the printed patent. The desired changes listed for Cols. 5, 7, 9, & 12 in the letter of Oct. 9, 2007 have not been included on a form PTO 1050 & the change that was included fails to identify any location for the change, let alone by Col. and line number of the printed patent. Further, the reference to the application beginning at page 6, line 22, is unclear given that the specification, as was previously amended at page 6, no longer has a "line 22". A corrected Certificate of Correction request must be submitted and applicants should note the example found in MPEP 1485 in order to properly identify the changes desired and the location of such changes in the printed patent. It is also not seen that the fee for correcting applicant's mistakes has been charged. The patent is printed in accordance with the record. In view of the foregoing, your request, in this matter(s), is hereby denied.

Further consideration/reconsideration will be given upon receipt of a Request for Reconsideration under, under the provision of U.S.C. 254 or 255 (C.F.R. 1.322 or 1.323), accompanied by the appropriate response or fee of \$100, which should be directed to Decisions & Certificates of Correction Branch.
